

**Seminar LACAC / CAAS on
“Aircraft Accident Investigation Techniques”**

(Quito, Ecuador, 7 to 11 October, 2019)

PURPOSE

This course provides you with an understanding of the aircraft accident investigation system and equips you with basic investigation techniques. It provides you with the knowledge and skills to organise formal investigations or to participate in and support formal investigations.

Upon completion of this course, you will be able to:

- Understand the roles of an accident investigation authority
- Understand how to apply aircraft accident investigation techniques
- Support and contribute when participating in formal investigations

AGENDA

Presentations, group assignments and case studies on:

- International Requirements
- Accident Investigation Agency
- Responding to Accidents/Incidents
- Organising an Investigation
- On-site Investigation Tasks
- Accident Site Safety
- Investigation Techniques
- Flight Recorders
- Interviewing Techniques
- Human and Organisational Factors
- Writing the Final Report
- Making Safety Recommendations
- Crisis Management
- Training of Investigators
- Sharing of Safety Information

WHO SHOULD ATTEND

This course is beneficial to personnel involved in accident investigations from civil aviation administrations, airport authorities, air navigation service providers, airlines, accident investigation agencies and related aviation organisations.

SPEAKERS
